24

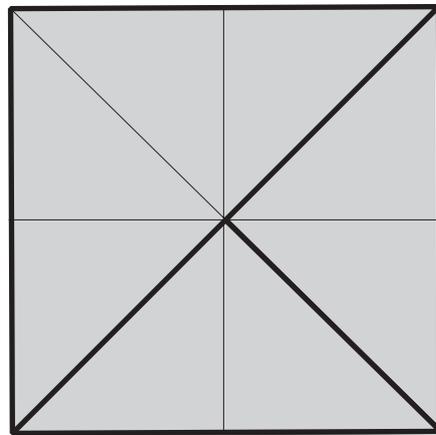

25

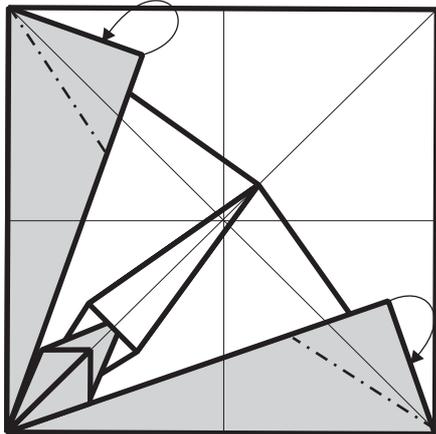

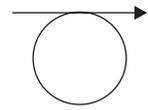

26

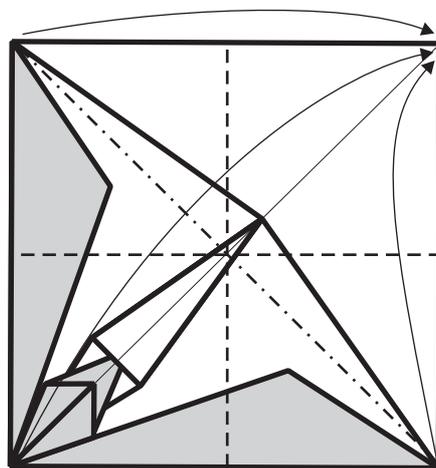

27

28

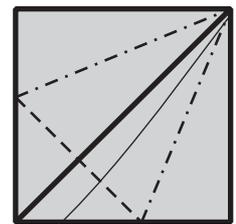

30

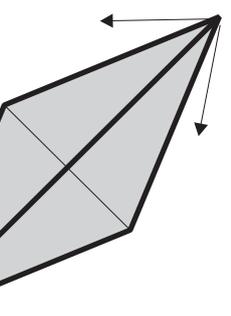

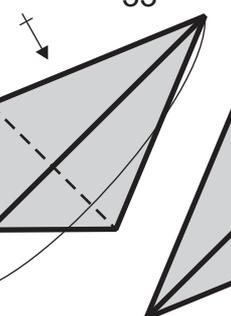

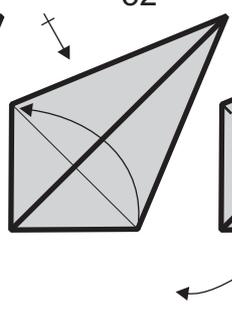

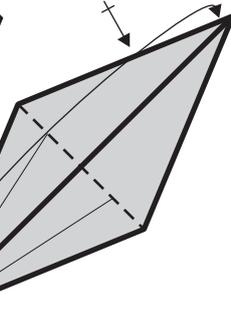

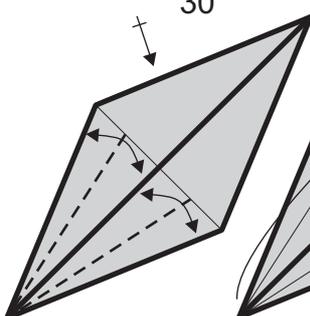

31

29 base quadrata
a cinque punte,
di Montroll,
modificata

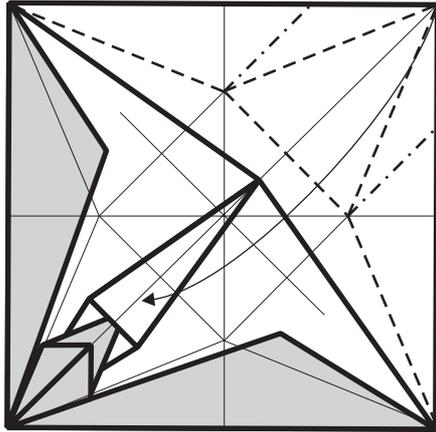

32

33

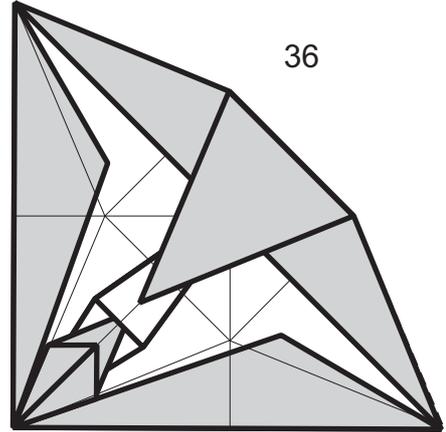

34

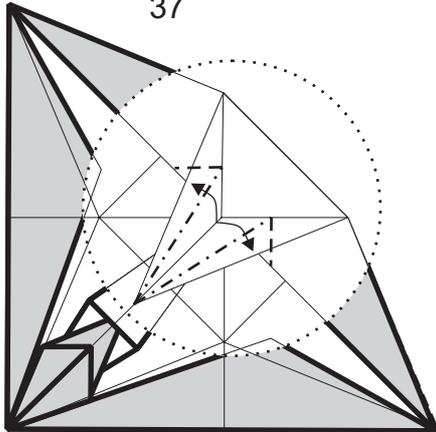

35

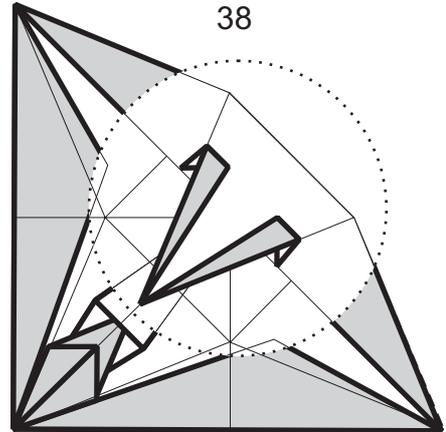

36

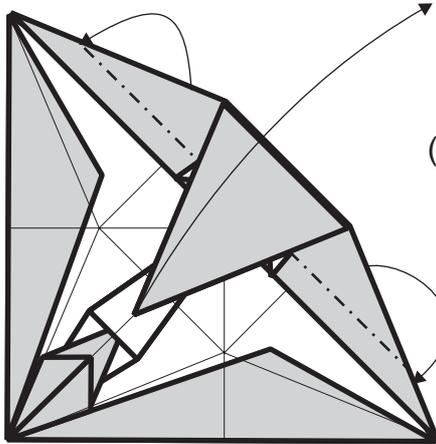

37

38

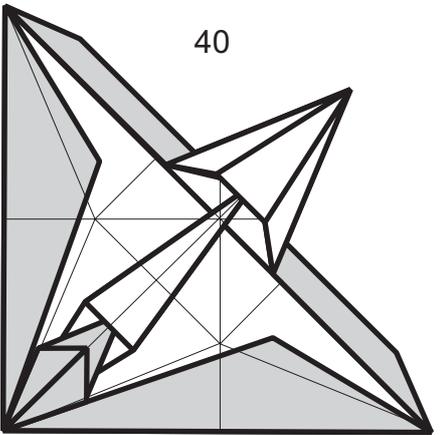

39

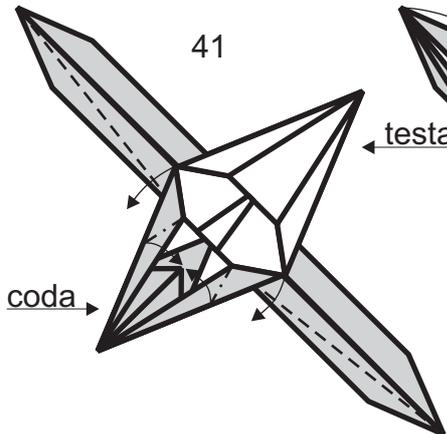

(35-39)

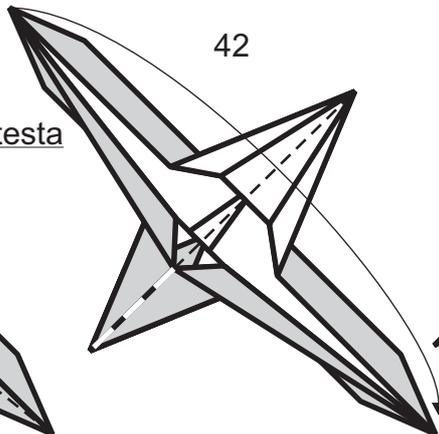

40

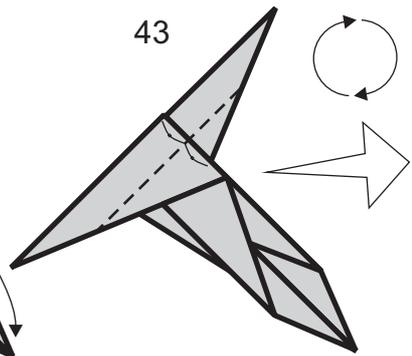

41

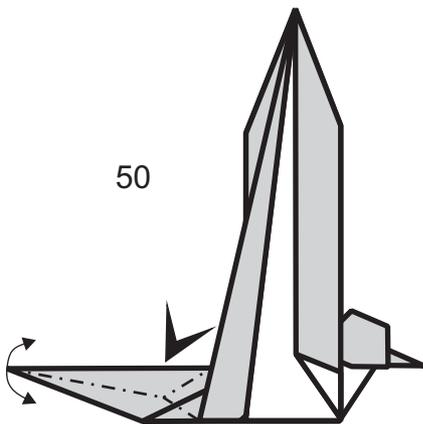

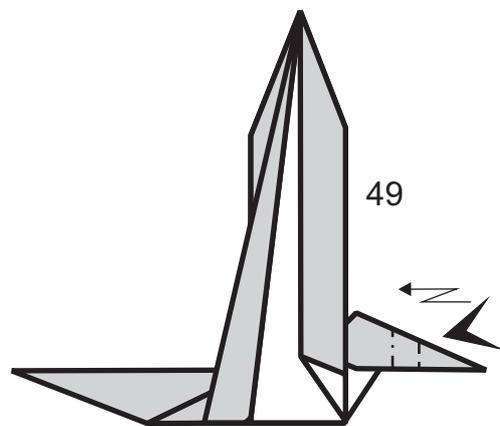

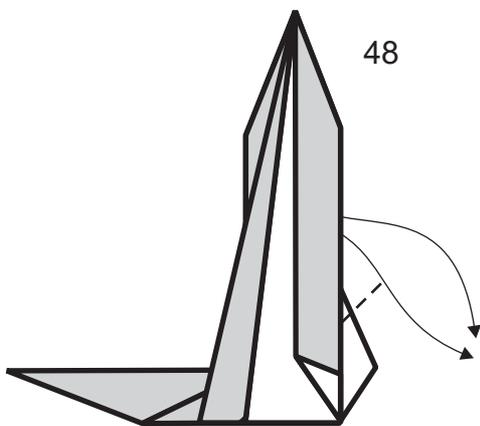

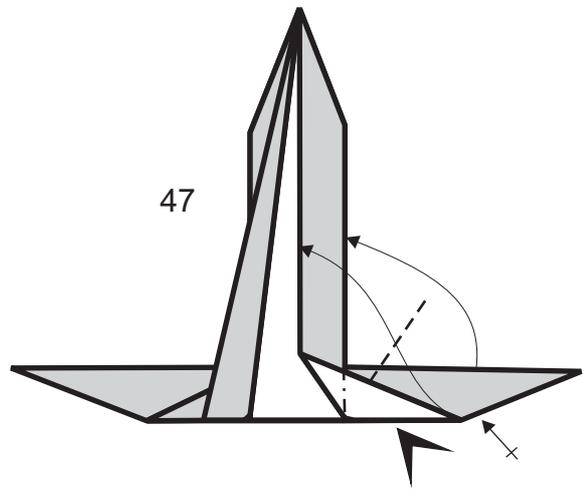

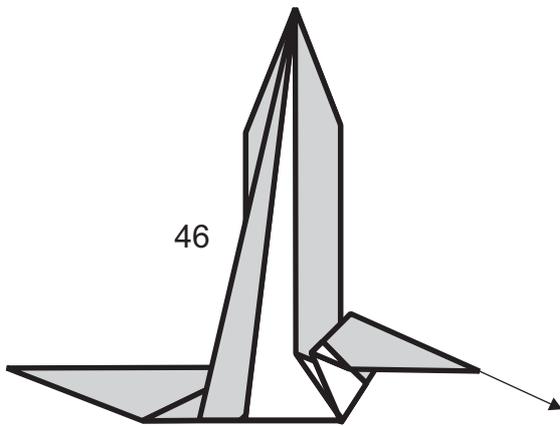

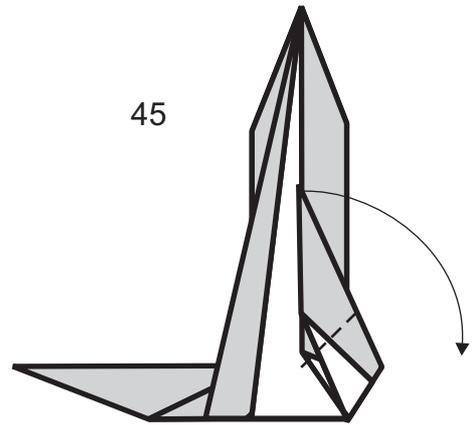

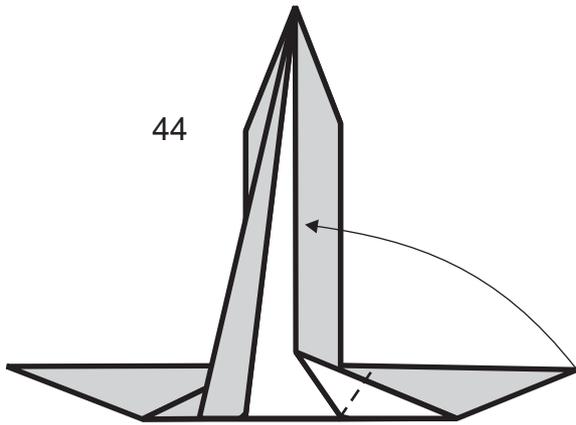

42

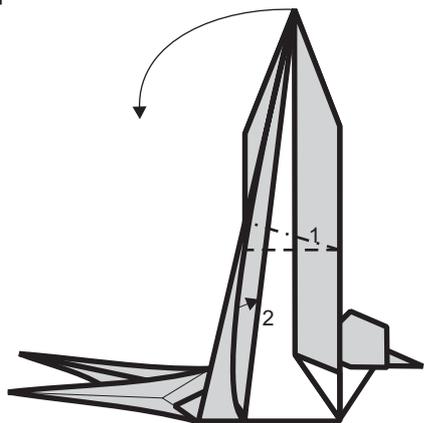

43

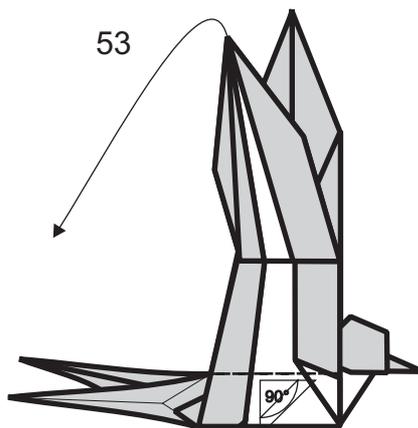

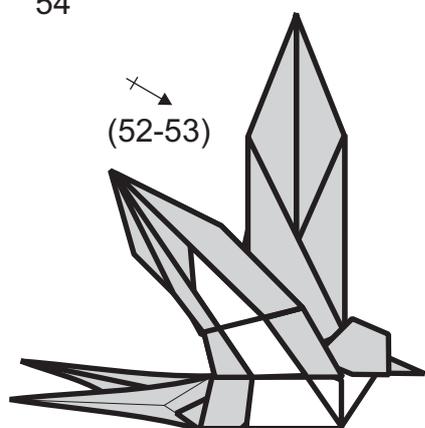

52 fare prima le pieghe e poi richiudere lo strato

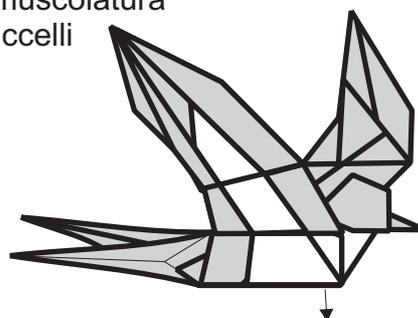

53

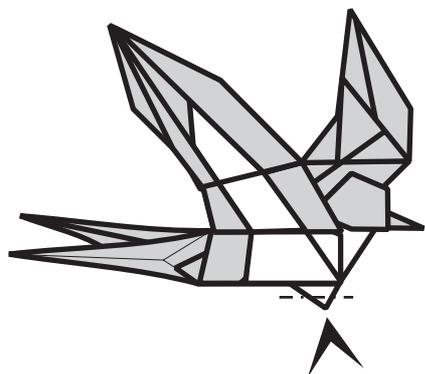

54

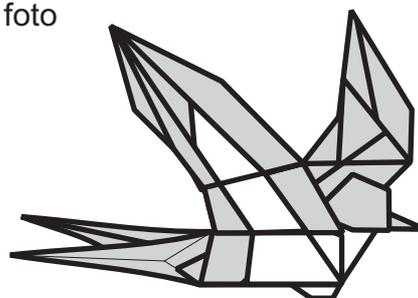

55 Estrarre la cassa toracica per creare la tipica muscolatura degli uccelli

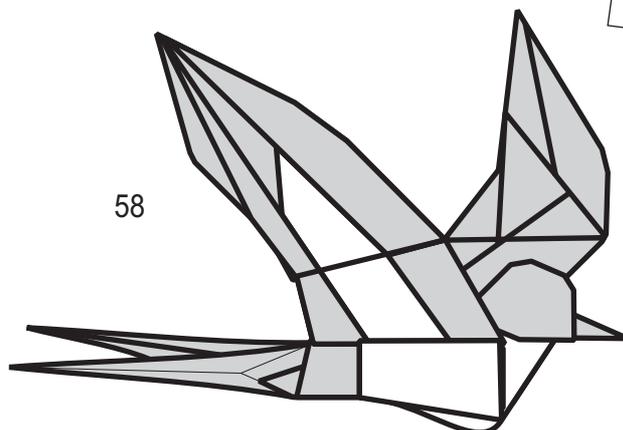

56

57 arrotondare tutti gli spigoli e modellare guardando una foto

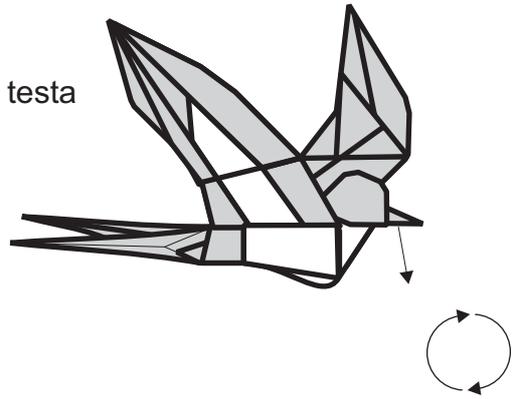

58

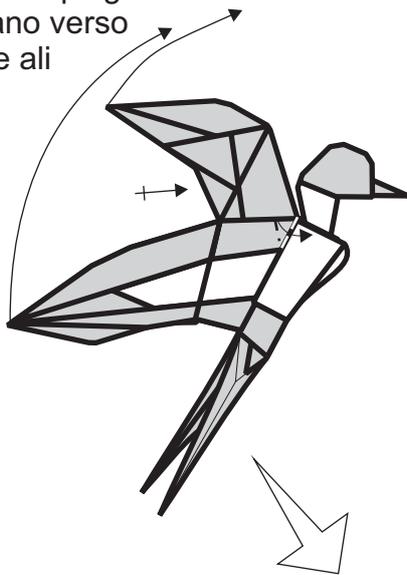

Avvicinamento al nido

59 ruotare la testa

60 queste pieghe spostano verso l'alto le ali

61

Come fa un carabiniere ad ammazzare una rondine?

La lancia dal balcone!!!!
