6

7

8

13 arrotondare ancora le ruote posteriori

14 intascare per bloccare

15

16

17 è stato disegnato solo il particolare.

18

19

90°

20

21 se non si è usata carta metallizzata la ruota tenderà ad riaprirsi, perciò queste pieghe le faremo tutte da un lato solo per bloccare la ruota.

22 arrotondare ancora la ruota anteriore

23

questo modello può essere trasformato in una scatola  
creando il telone posteriore

## Telone

è preferibile usare un quadrato leggermente più piccolo di quello usato per l'ape car

24 dividere in quinti  
segnando solo i punti

25

26

27

16esimo

11esimo

28

sai cosa puoi fare per raddoppiare il valore del tuo ape car?

???

farcili pieno...!!!
