

# Gommone di P. D'Auria

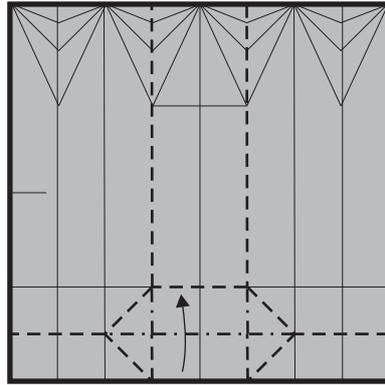

<http://www.origamidauria.it>

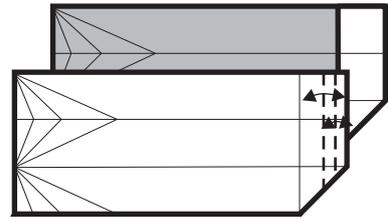

14

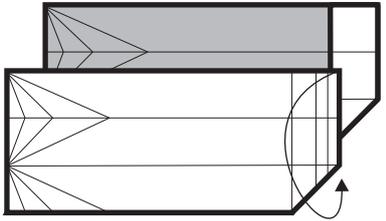

15

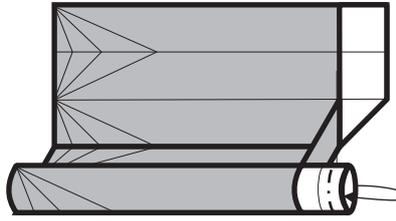

16

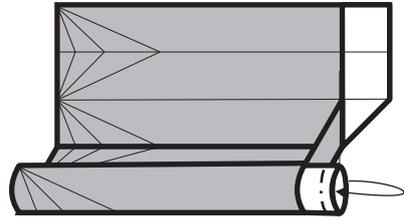

17 arrotondare e intascare

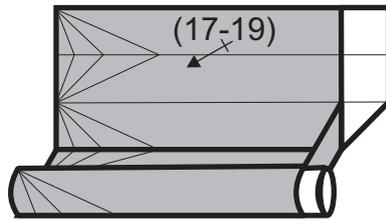

18

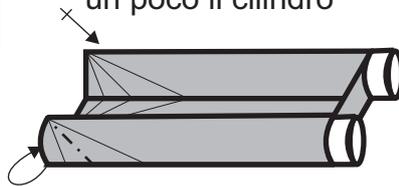

19

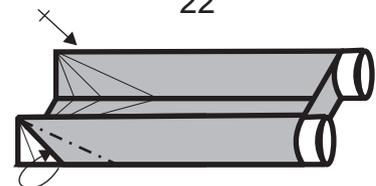

20

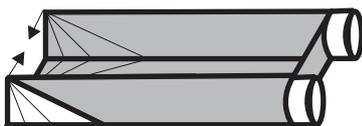

21 per fare questa piega bisogna schiacciare un poco il cilindro

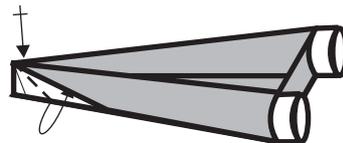

22

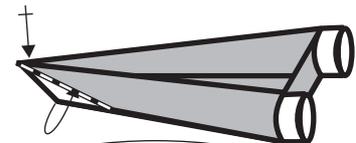

23

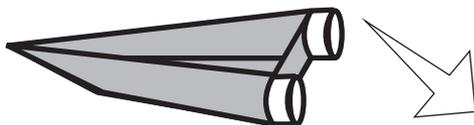

24

25

26 modellare, riaprendo il fondo e lasciando i due cilindri laterali più gonfi possibile

ho comprato un gommone di 8 metri

e cosa devi cancellare???
