

# Rosa

di P. D'Auria

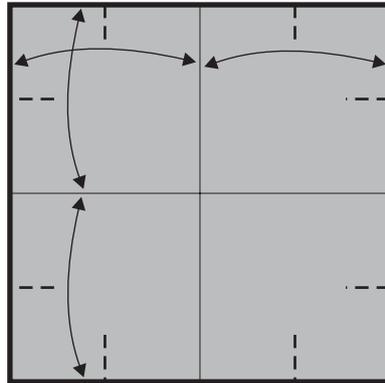

<http://www.origamidauria.it>

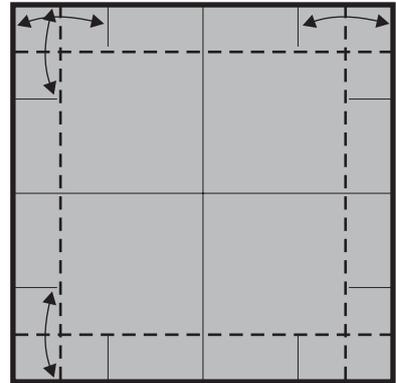

fiore  
usare un foglio monocolore, nei disegni il foglio  
sarà bicolore per evidenziare meglio i due lati

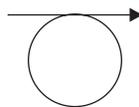

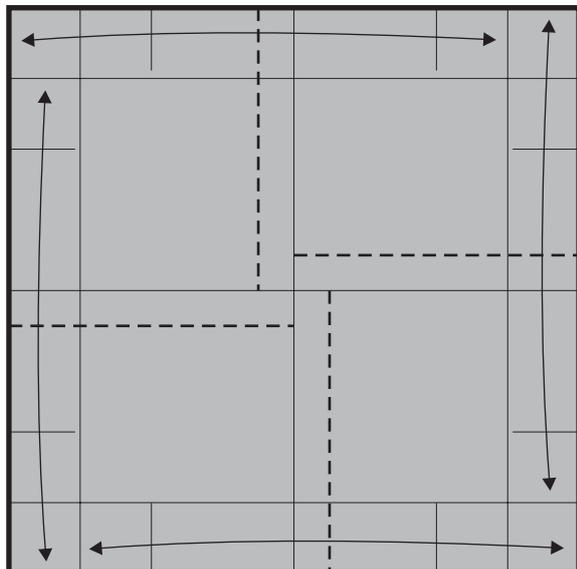

2 segnare su tutti i quattro lati

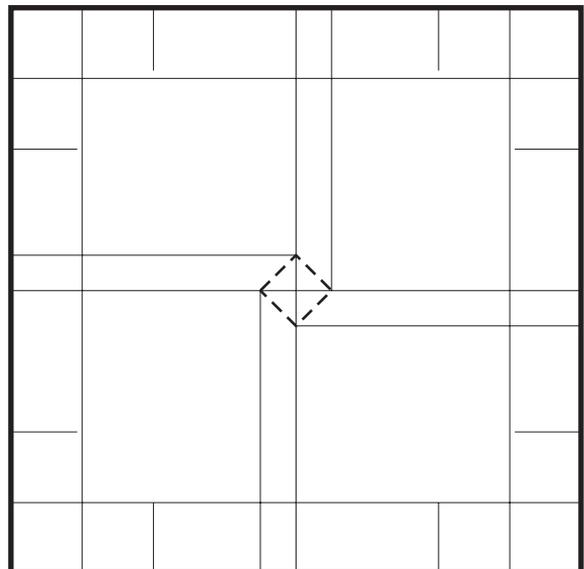

3

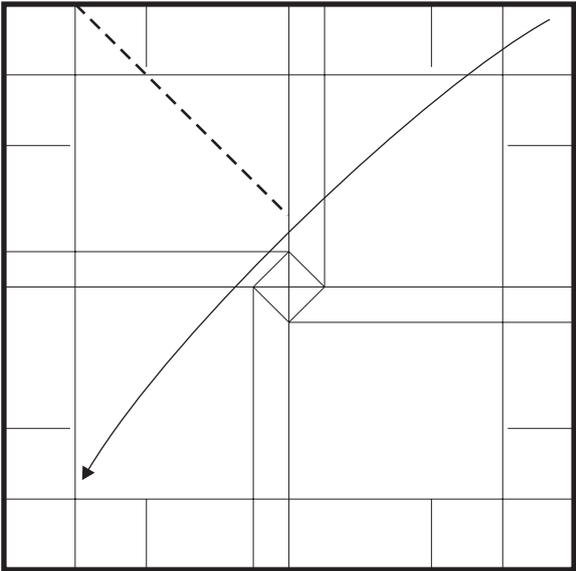

4

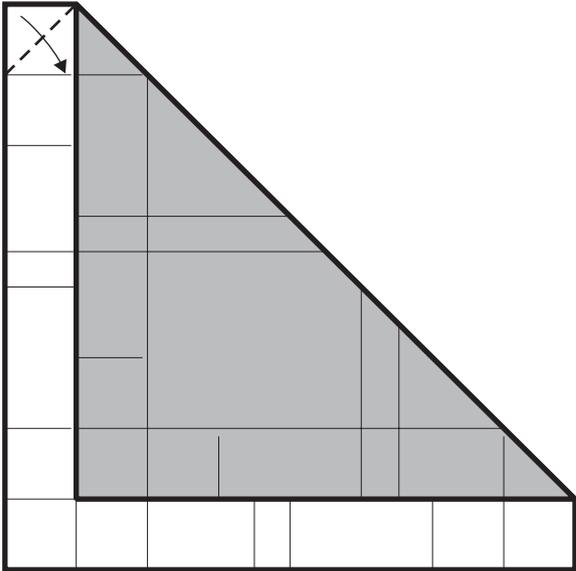

5

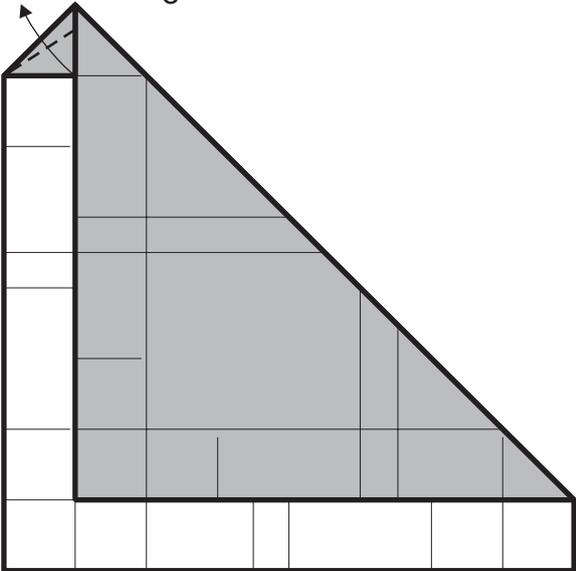

6 segnare solo fino alla mediana

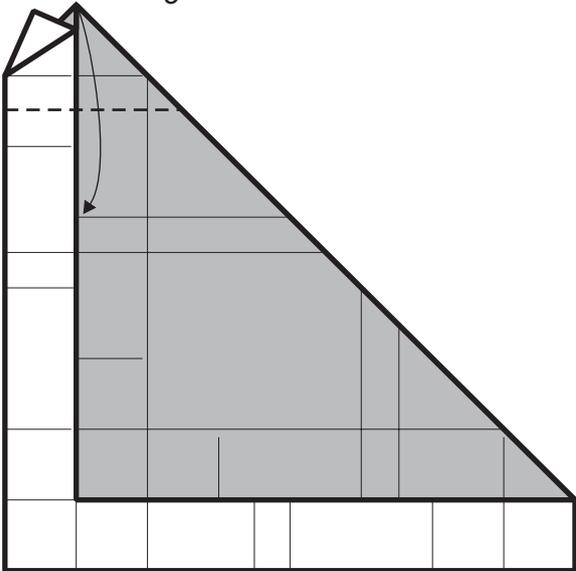

7

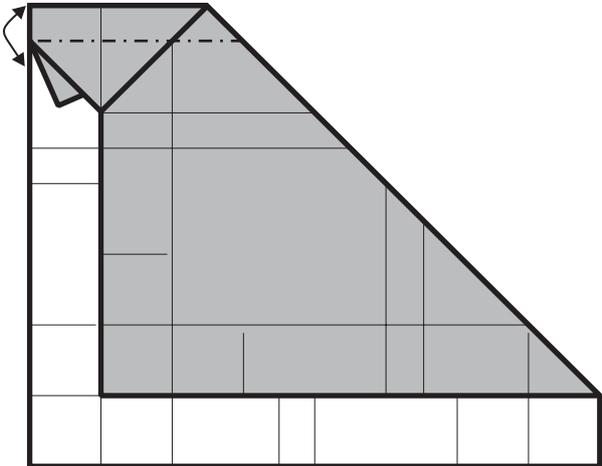

8

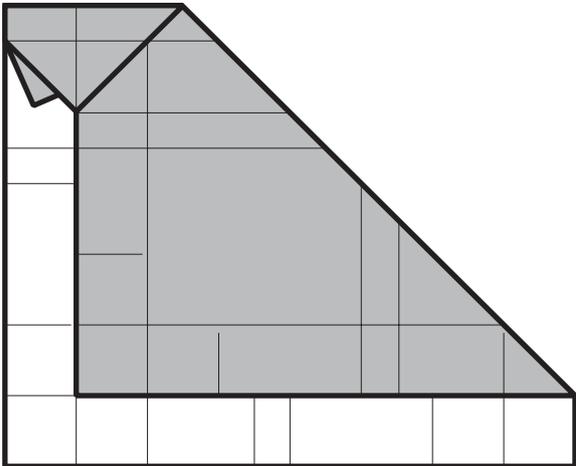

9

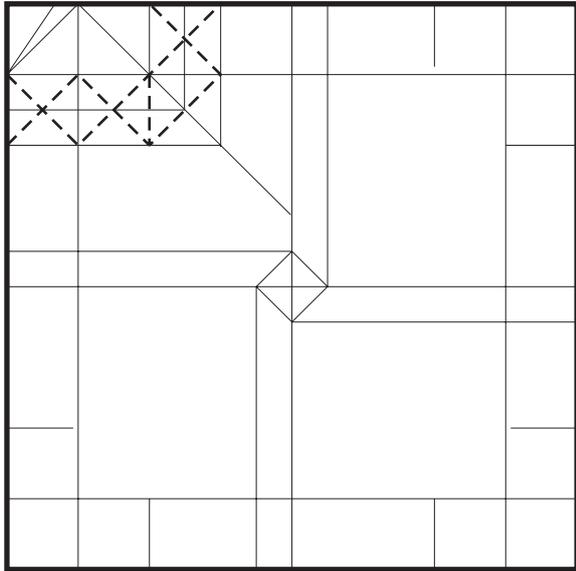

9

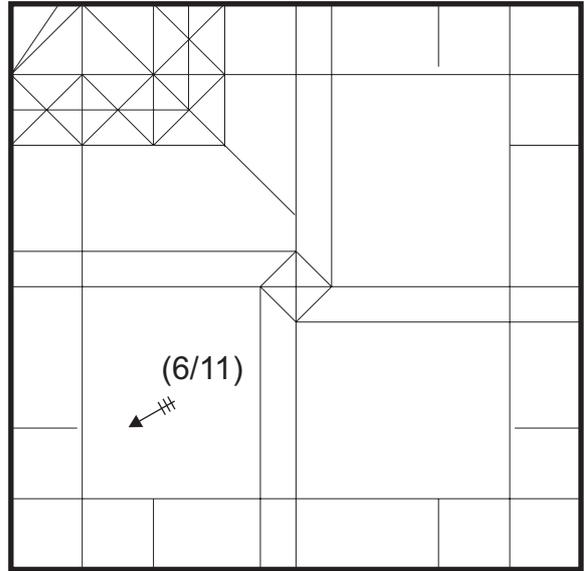

10 riaprire tutto

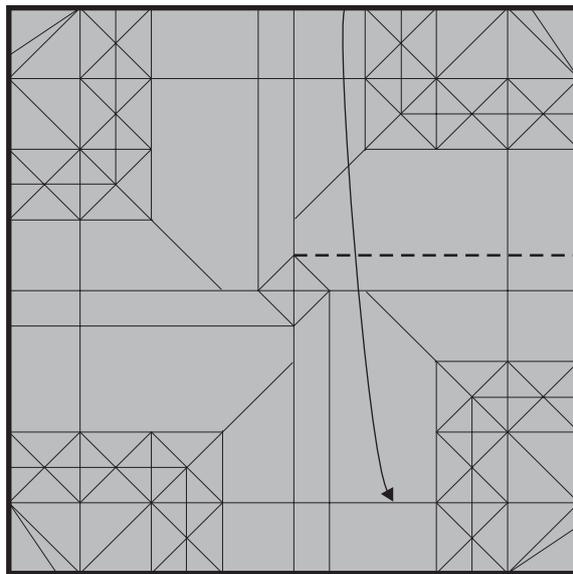

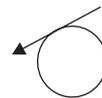

11

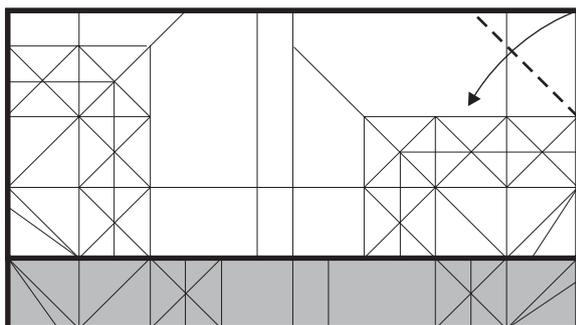

12

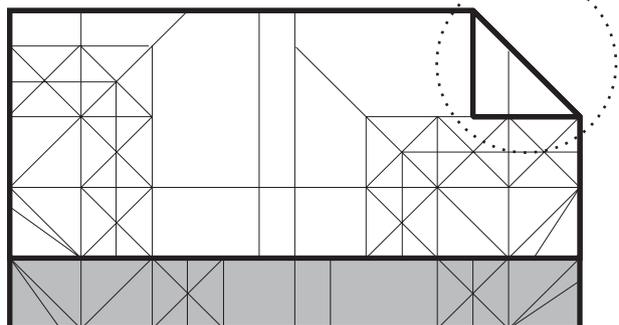

13

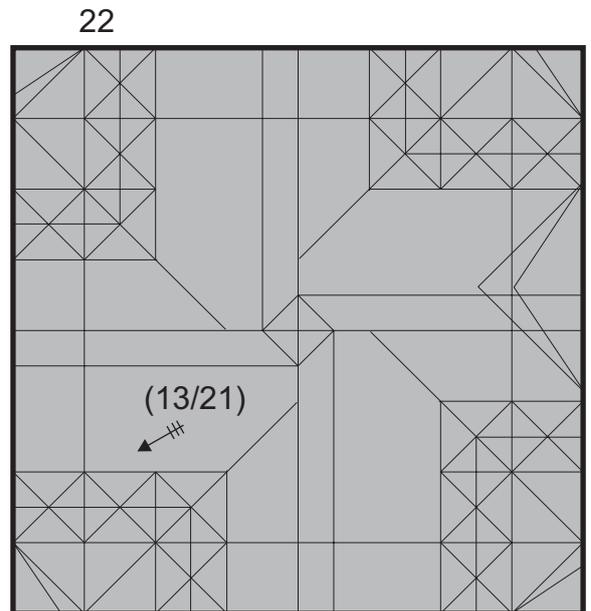

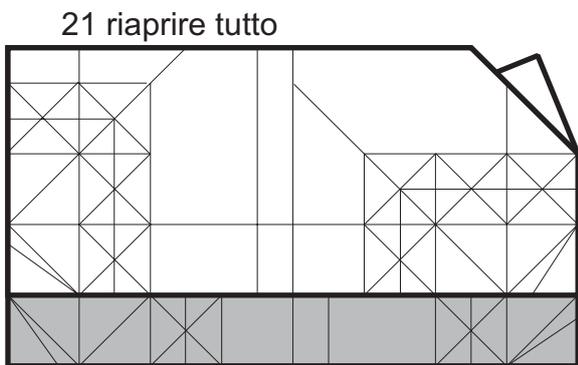

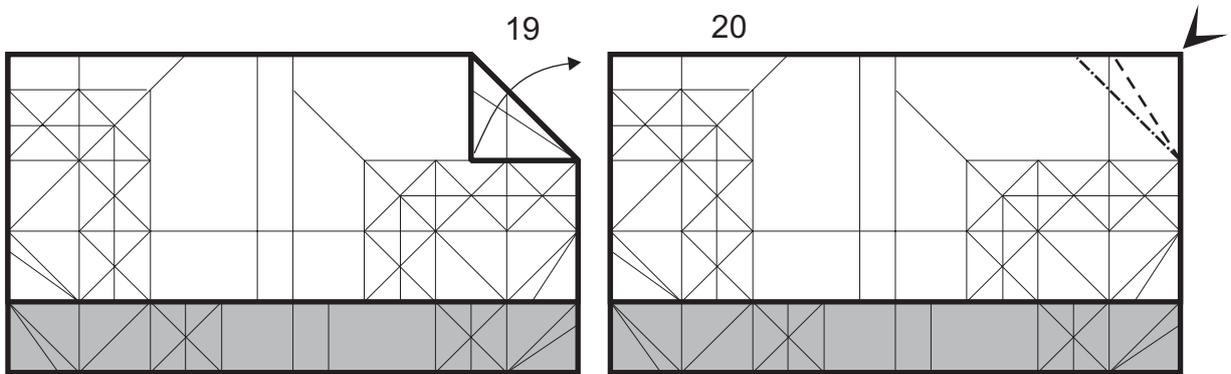

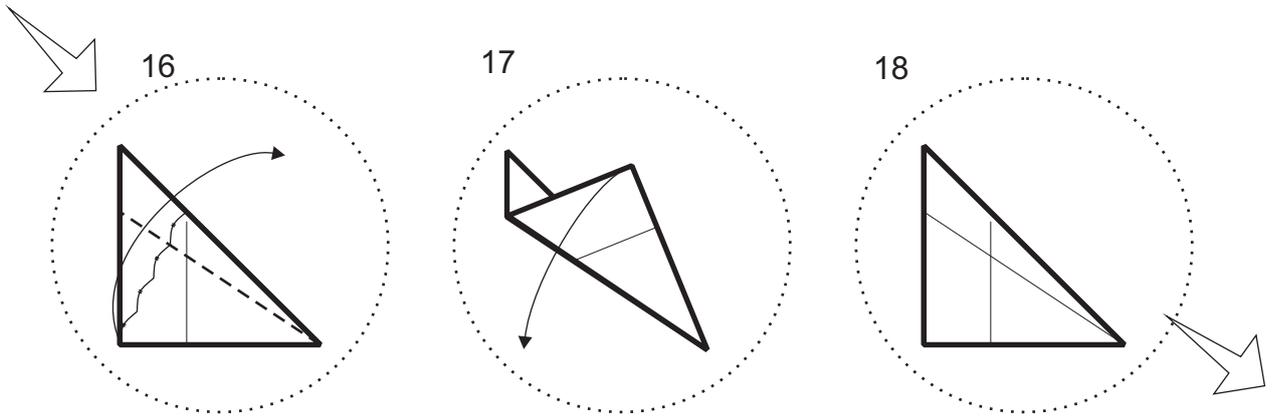

14

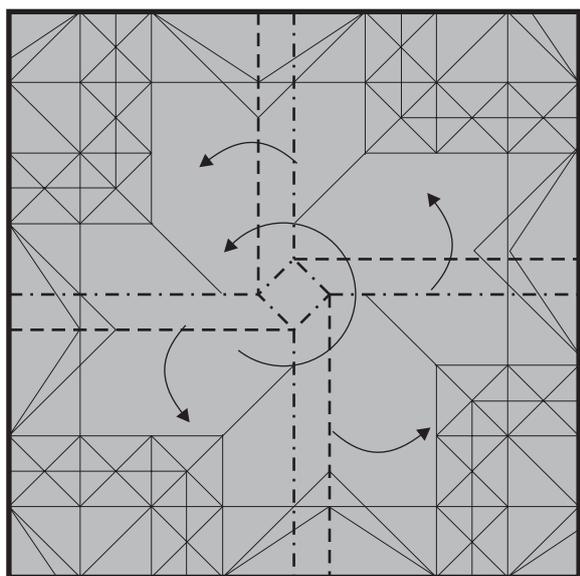

15

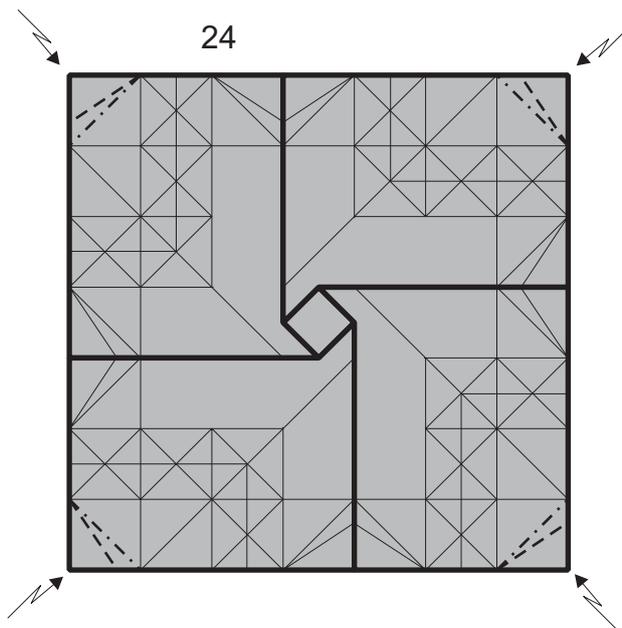

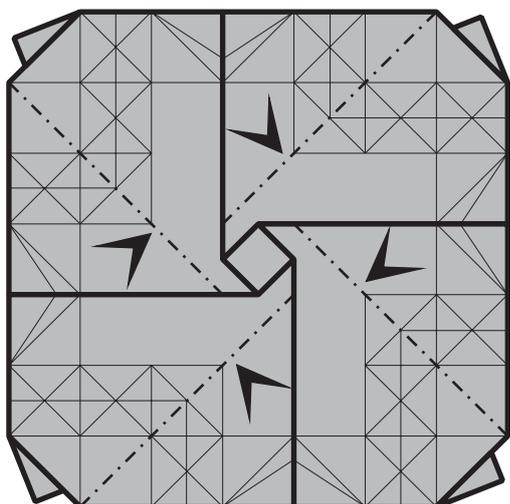

23

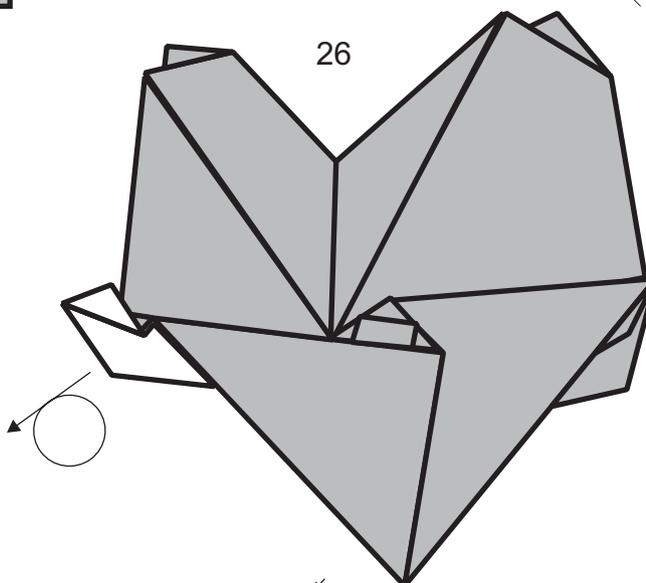

24

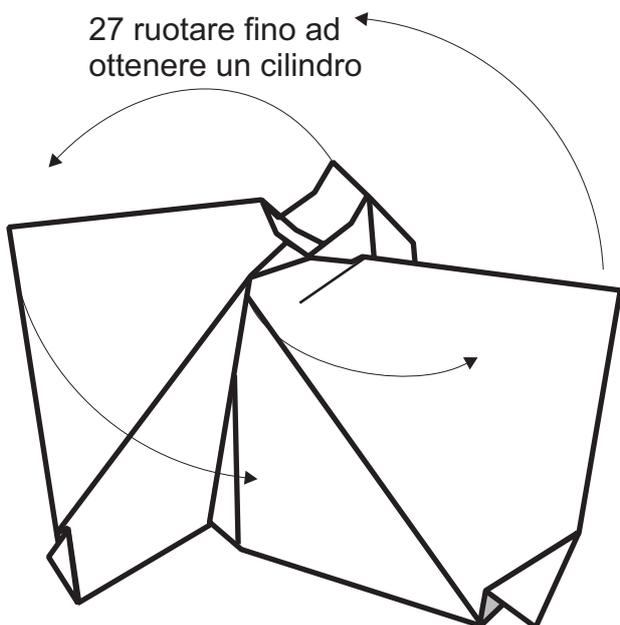

25

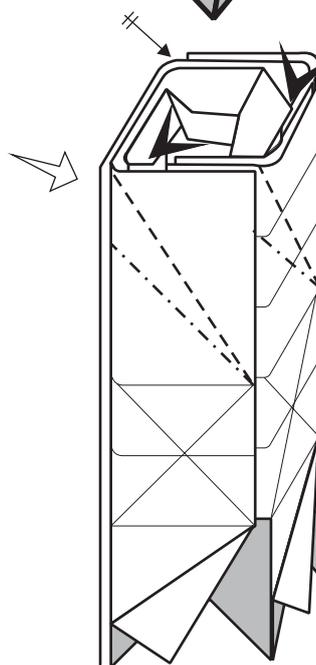

26

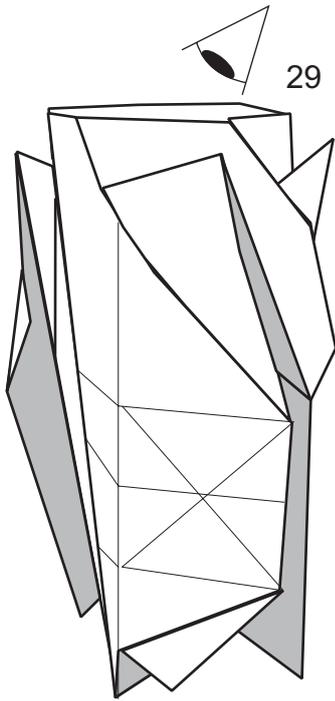

27 ruotare fino ad ottenere un cilindro

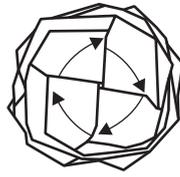

28

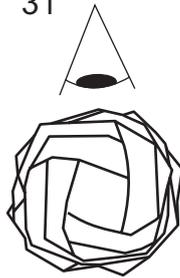

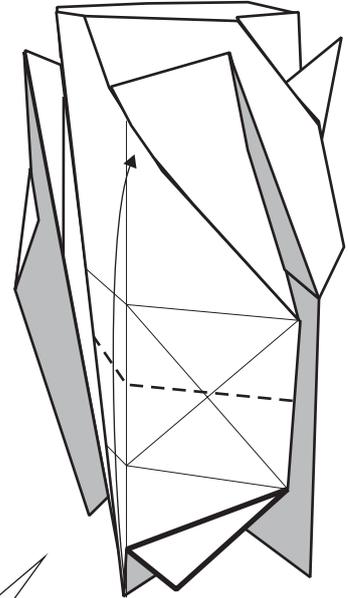

30 aprire il twist

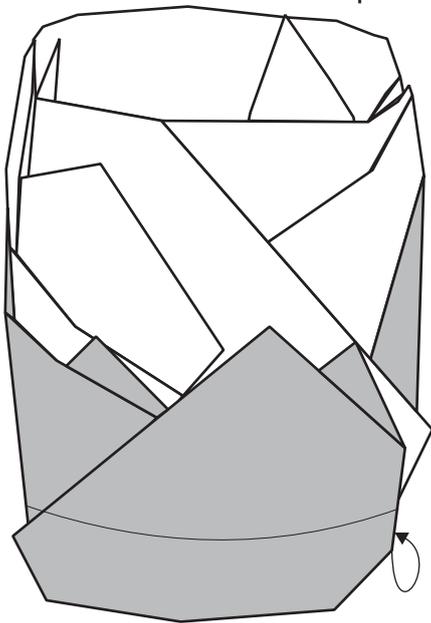

31

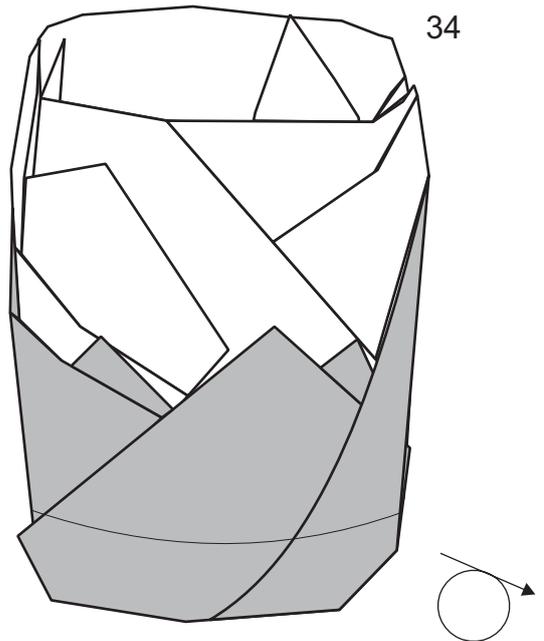

32

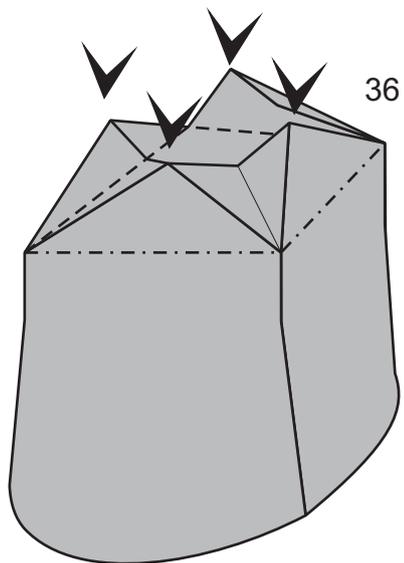

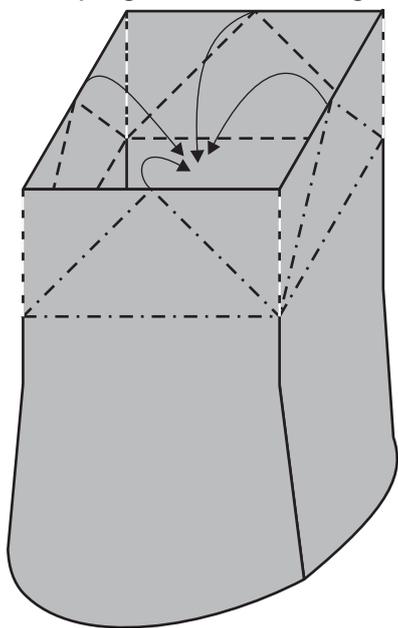

33 intascare  
la quarta  
punta sotto  
la prima

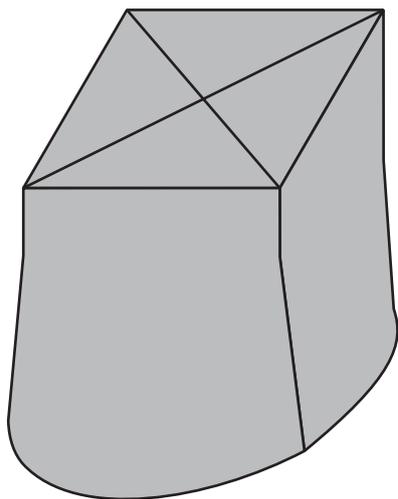

34

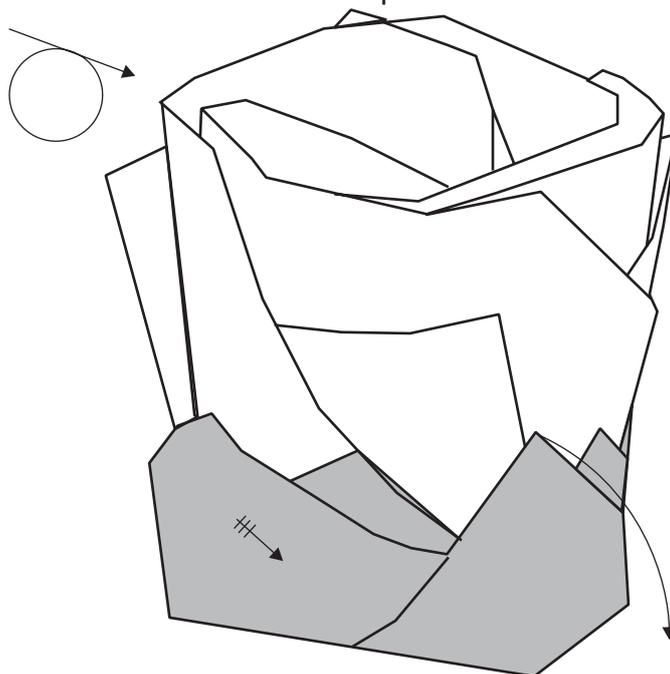

35 figura semplificata, queste  
pieghe le abbiamo già prepiegate

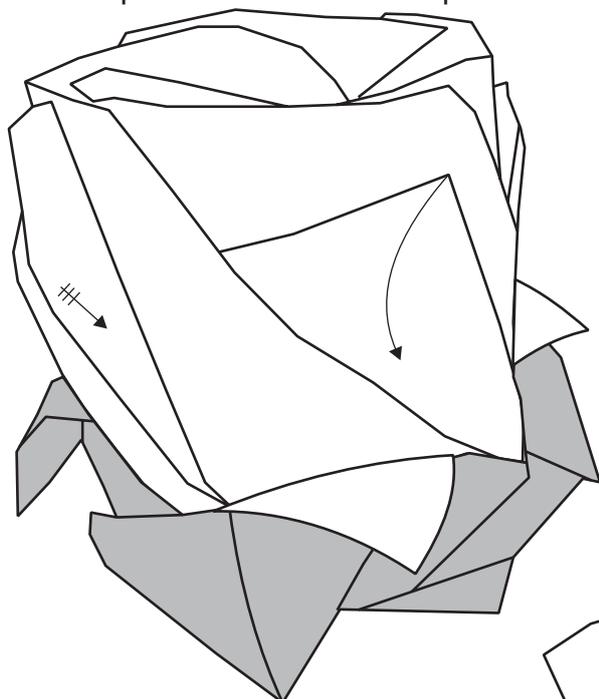

37

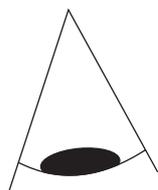

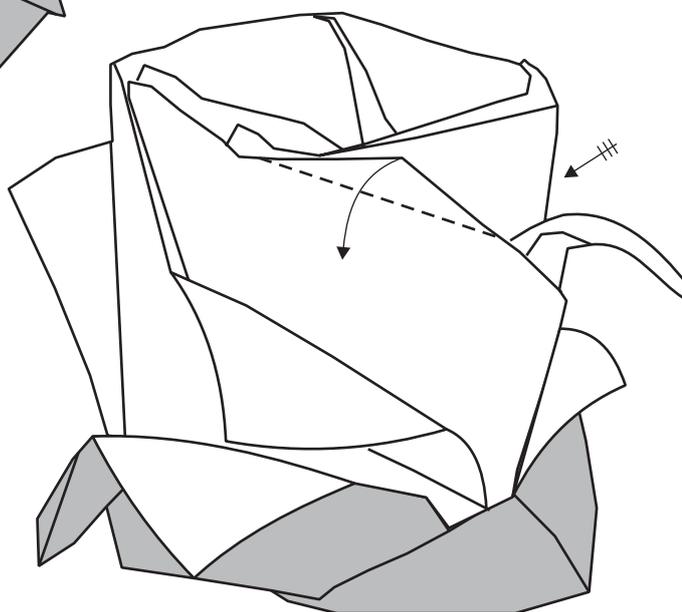

38 figura completa, questa non è una piega,  
ma è portare la punta in basso nel modo più  
morbido e rotondo possibile

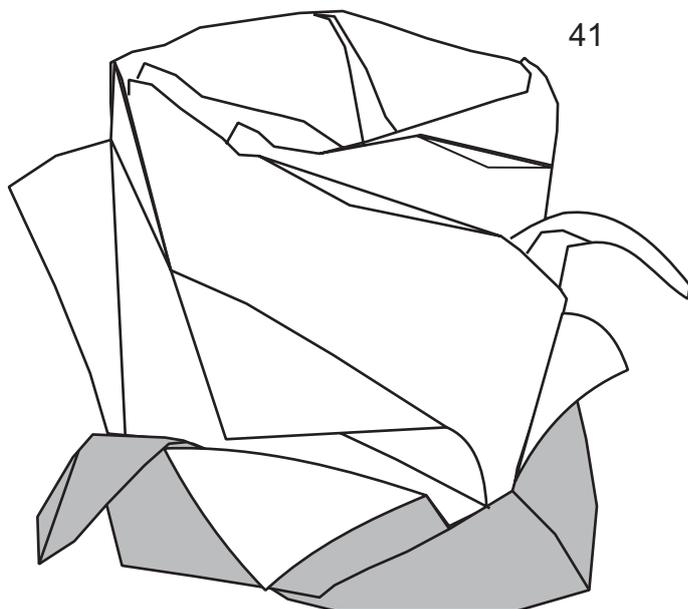

39 anche questa non è una piega, ma è portare la punta in basso nel modo più morbido e rotondo possibile

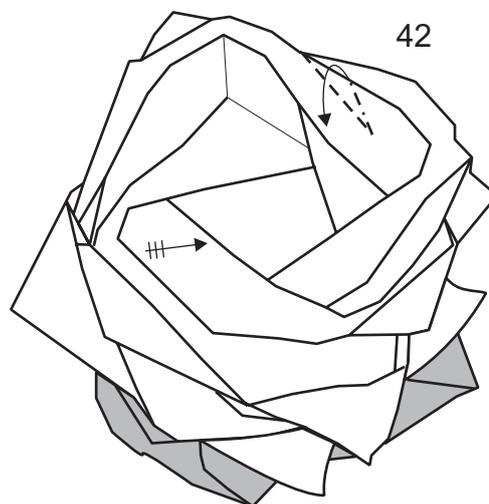

40 anche questa piega, dobbiamo farla più morbida e rotonda possibile

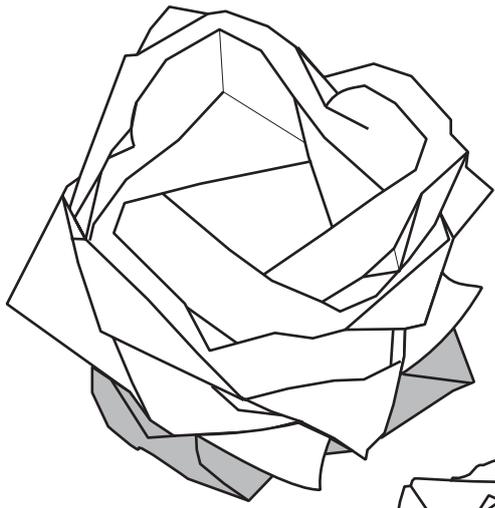

41

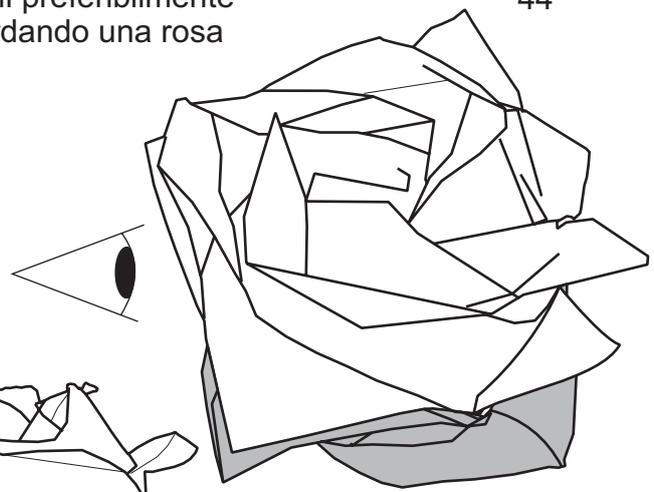

42

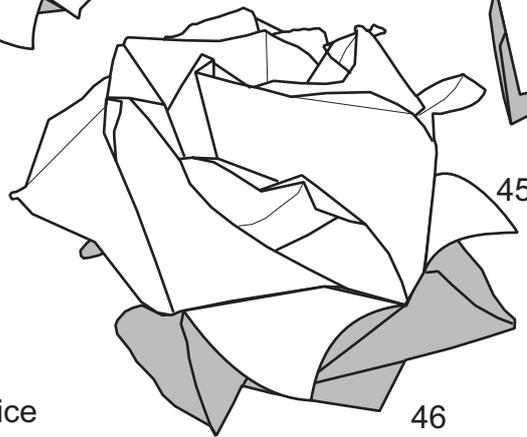

43 modellare tutti i petali preferibilmente guardando una rosa vera

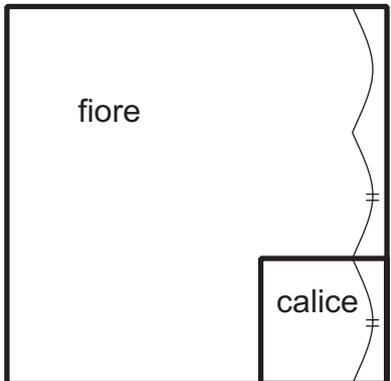

44

45

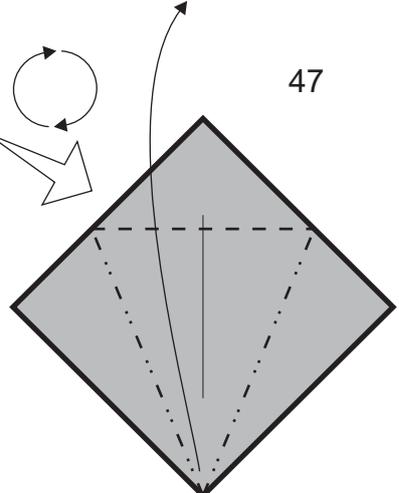

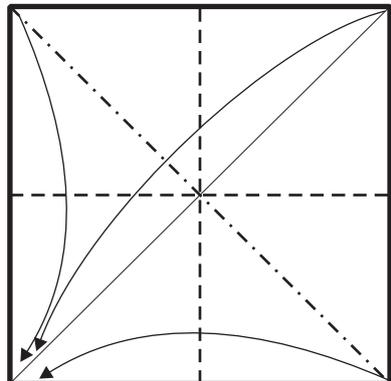

46

calice

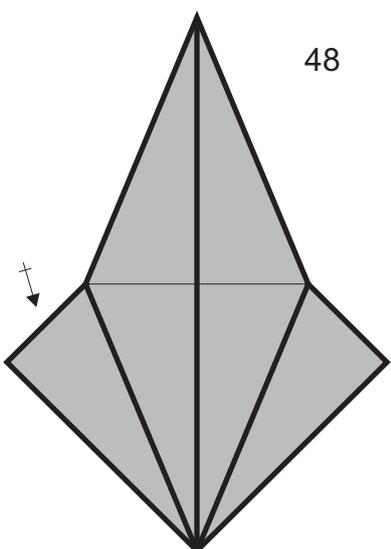

fiore

calice

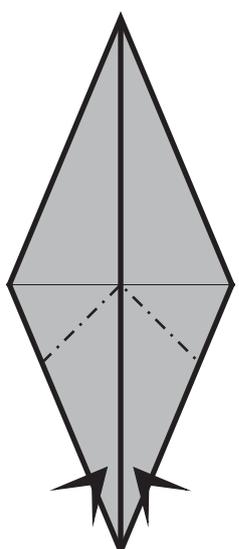

47

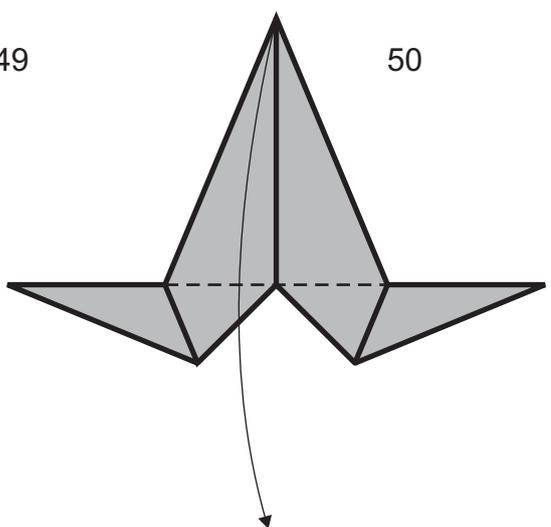

48

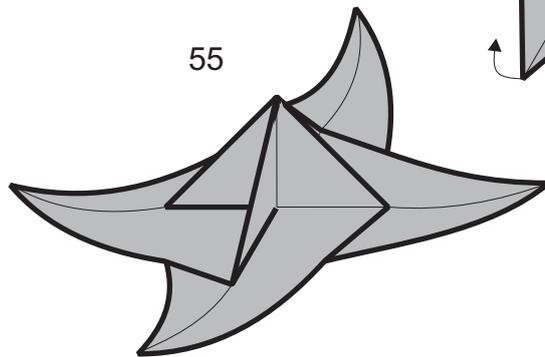

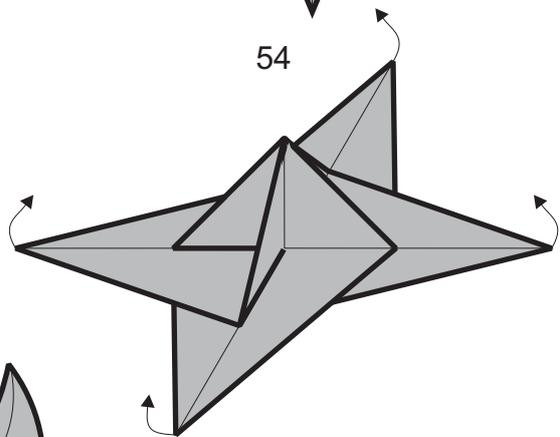

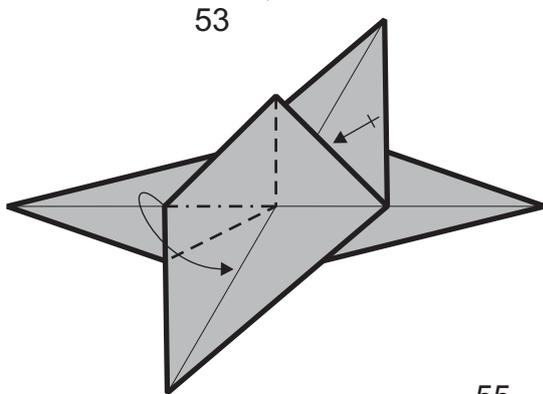

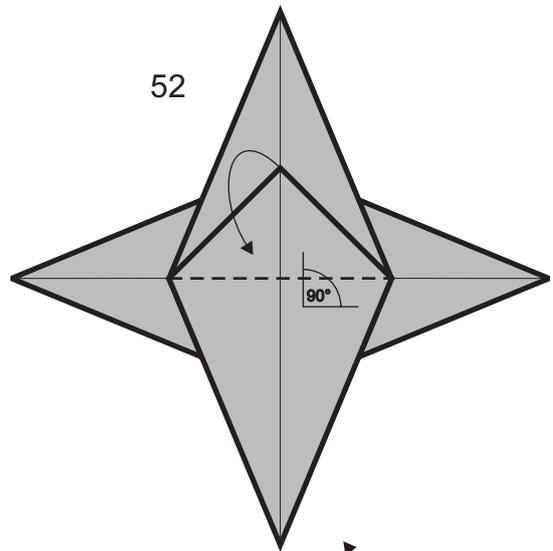

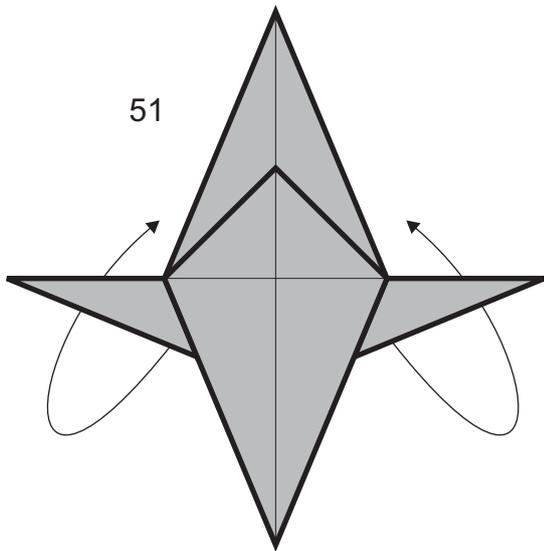

49

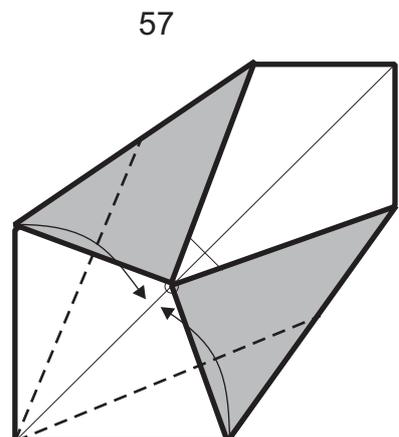

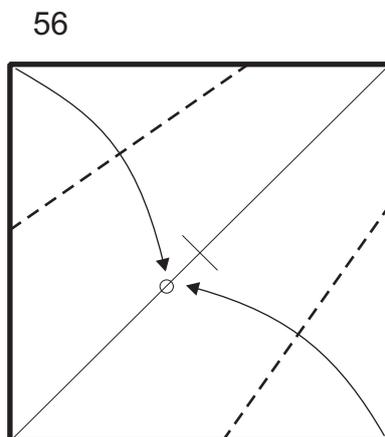

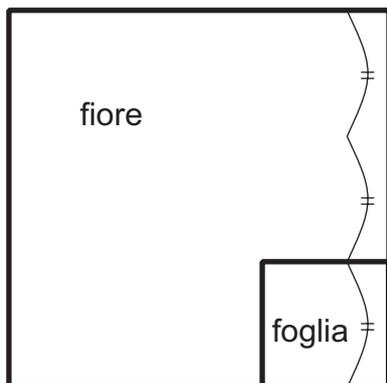

50

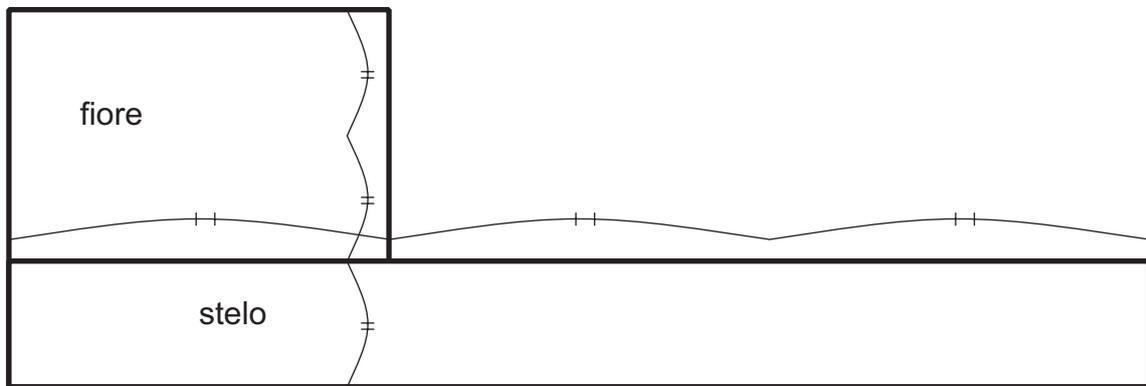

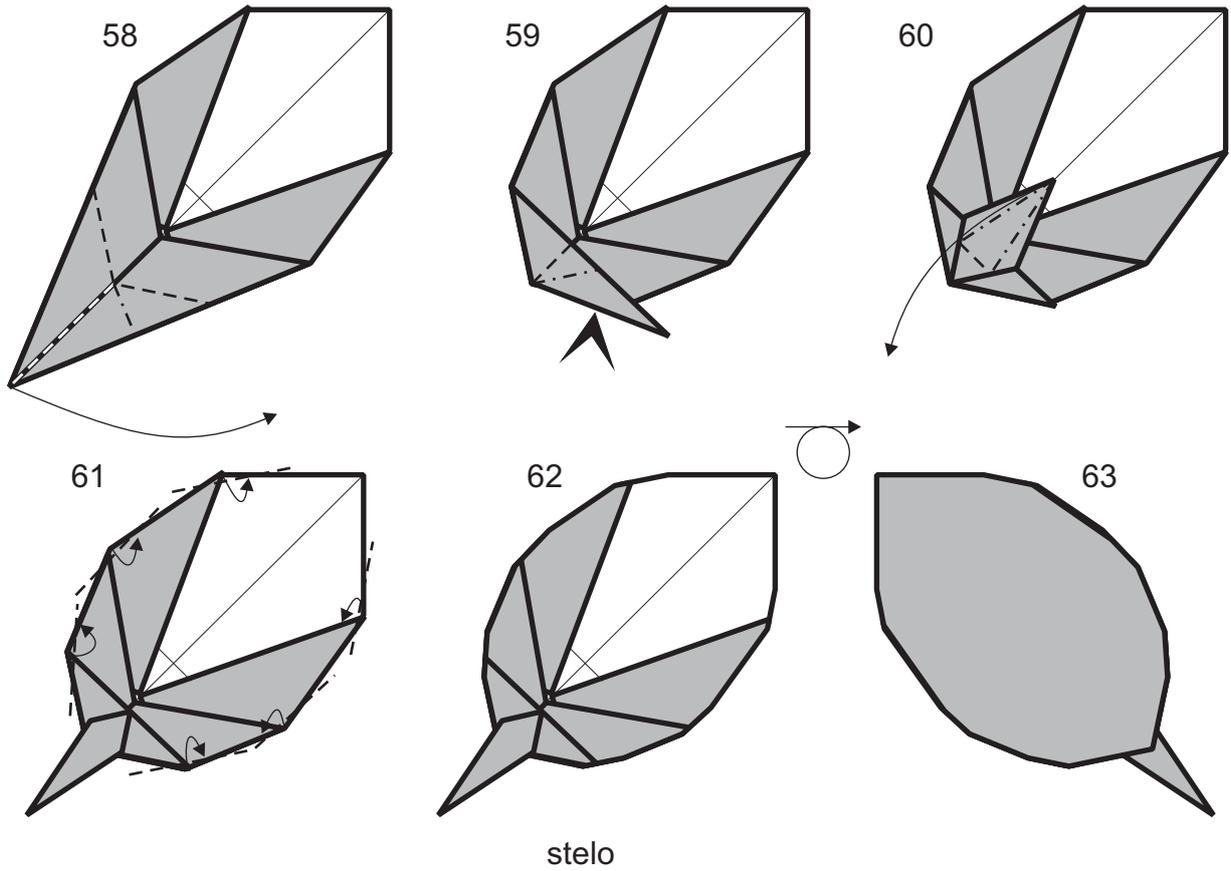

foglia

usare un foglio monocolor

64 arrotolare fino a creare un bastoncino

65 lasciamo riaprire il foglio

66

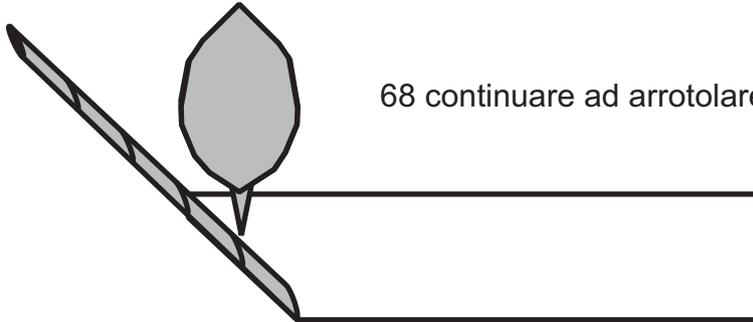

montiamo la rosa

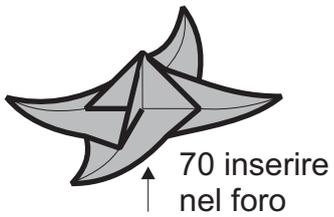

67 arrotolare fino a metà

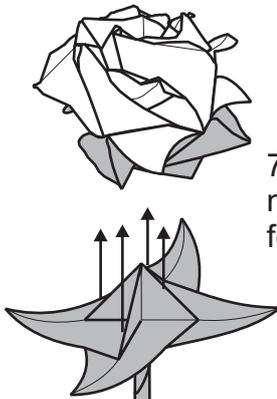

68 continuare ad arrotolare

Rosa, non posso sposarti...sono allergico al polline dei fiori....

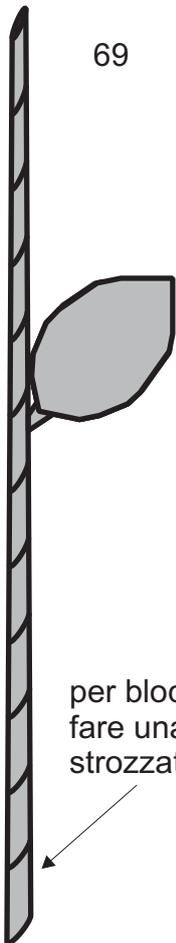

70 inserire nel foro

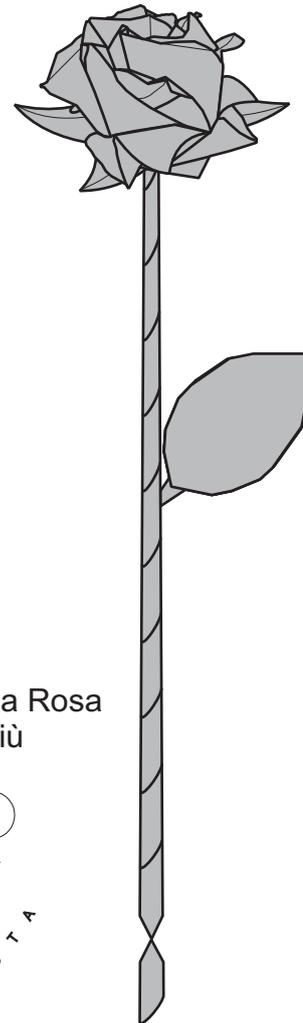

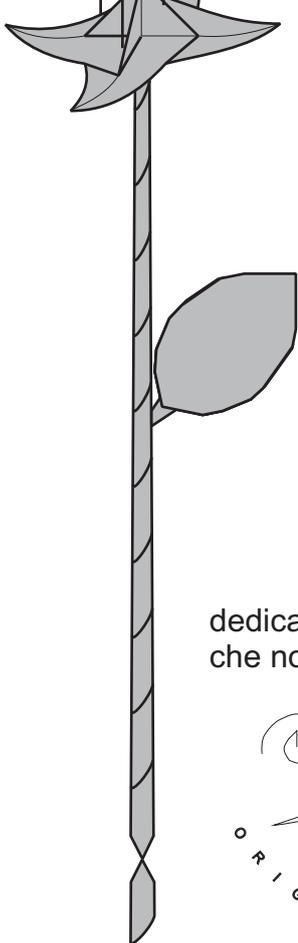

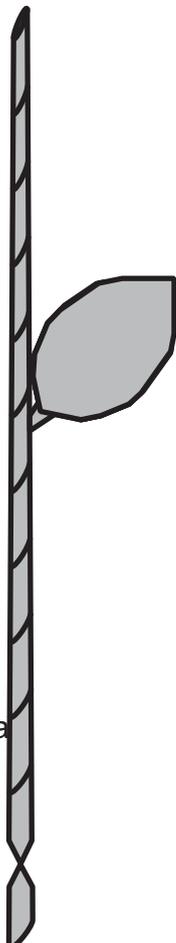

71 inserire nelle 4 fessure

72

per bloccare fare una piccola strozzatura

dedicata a una Rosa che non c'è più
